an Interscience® Publication

published by JOHN WILEY & SONS

Developmental Psychobiology will publish original reports of research that contribute to understanding behaviorally related developmental processes. We welcome the submission of manuscripts whose focus is on behavioral development, whether in the embryo, fetus, neonate, or juvenile animal. Anatomical, physiological, biochemical, hormonal, pharmacological, genetic and evolutionary approaches are also appropriate—in fact, we strongly support such multidisciplinary work when the relationship to behavioral development is clear. Experimental and descriptive studies, whether carried out in the laboratory or field and irrespective of the particular species being studied, are considered to be equally meritorious. The submission of studies using invertebrates, humans, or any other animal is encouraged. We thus invite workers in all fields of psychology, biology, medicine and neuroscience who are involved in ontogenetic studies of behavior to submit manuscripts to *Developmental Psychobiology*.

Manuscripts should be submitted to The Editors, *Developmental Psychobiology*, P.O. Box 10486, Raleigh, NC 27605 (see inside back cover). Studies presented in a report should represent a thorough, though not necessarily exhaustive, analysis of the research topic. Brief reports or papers merely describing techniques are discouraged. *Developmental Psychobiology* will also publish Comments, consisting of short discussions of issues and problems of interest to other researchers, as well as Book Reviews. Authors should consult the Editors on the preparation and appropriateness of such contributions. *Developmental Psychobiology* will occasionally publish critical reviews of recent research. Such reviews should consist of a synthesis and a critical evaluation of the field, and should not be merely a synopsis of the literature. Theoretical papers may also be published, especially if they include a critical analysis of the pertinent literature such that they are likely to promote further research in the field. Finally, announcements of events and other new items of general interest to the readers are solicited and will be published on an irregular basis.

Developmental Psychobiology is the official publication of the International Society for Developmental Psychobiology. However, membership in the Society is not a prerequisite for submission or publication. Manuscripts are evaluated entirely on their merit. Detailed information on manuscript preparation can be found on the inside of the rear cover pages of any recent issue of the journal.

Editorial Assistant: Carol Majors

Developmental Psychobiology (ISSN: 0012-1630) is published bimonthly, one volume per year, by John Wiley & Sons, Inc. Copyright © 1983 by John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10158. All rights reserved. Reproduction or translation of any part of this work beyond that permitted by Sections 107 or 108 of the United States Copyright Law without the permission of the copyright owner is unlawful.

The code and the copyright notice appearing at the bottom of the first page of an article in this journal indicate the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The per-copy fee for each article appears after the dollar sign and is to be paid through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970. (The fee for articles published prior to 1978 is $1.00 per article.) This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the publisher.

Subscription price (1984): $100.00 per volume. Postage and handling outside U.S.A.: $24.00 by surface; $126.00 by air. Please allow four weeks for processing a change of address. Back volumes, microfilm, and microfiche are available for previous years. Request price list from publisher. **Postmaster:** Send address changes to Subscription Department, John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10158.

Inquiries concerning **advertising** should be forwarded to either the U.S. Advertising Representative, Daniel S. Lipner, Weston Media Associates, 37 Grey's Farm Road, Weston, CT 06883, or to the European Advertising Representative, Richard Webb, REW Space Sales, Apartment 1, 2 Gladstone Road, Kingston-upon-Thames, Surrey KT1 3HD, U.K.

Second class postage paid at New York, New York and at additional mailing offices. Claims for undelivered copies will only be accepted after the following issue has been received. Please enclose mailing label. Missing copies will be supplied when losses have been sustained in transit and if reserve stock permits.

The contents of this journal are indexed in the following: *Biological Abstracts*, *Chemical Abstracts*, *Child Development Abstracts and Bibliography*, *Current Contents/Life Sciences*, *Excerpta Medica*, *Index Medicus*, *Psychological Abstracts*, *Science Citation Index*, and *The Psychological Reader's Guide*.

Developmental Psychobiology

Volume 16, 1983

Contents

NO. 1, JANUARY 1983

1 **"Conservations" with a chimpanzee**
S. J. Muncer

13 **Odor-aversion learning by rats following LiCl exposure: Ontogenetic influences**
J. W. Rudy and M. D. Cheatle

23 **Chicken muscular dystrophy: An inherited disorder of flight**
R. R. Provine

29 **Shifting patterns of bilateral coordination and lateral dominance in the leg movements of young infants**
E. Thelen, R. Ridley-Johnson, and D. M. Fisher

47 **The separate and combined effect of early undernutrition and environmental complexity at different ages on cerebral measures in rats**
H. B. Katz and C. A. Davies

59 **Book Review: Language and maturation, by Paula Menyuk**
L. Adamson

63 **Book Review: Toddlers' behaviors with agemates: Issues of interaction, cognition, and affect, by Wanda C. Bronson**
H. S. Ross, D. M. Borwick, B. D. Goldman, and D. F. Hay

69 **Author's response to Book Review: Toddlers' behaviors with agemates: Issues of interaction, cognition, and affect**
W. C. Bronson

73 **Information for contributors**

NO. 2, MARCH 1983

75 **Pup recognition in *Mus musculus:* Parental discrimination between their own and alien young**
M. C. Ostermeyer and R. W. Elwood

83 **Periadolescence: Age-dependent behavior and psychopharmacological responsivity in rats**
L. P. Spear and S. C. Brake

111 **Reproductive functioning in the prenatally stressed female rat**
S. Beckhardt and I. L. Ward

119 **Appetitive instrumental training in preweanling rats: I. Motivational determinants**
G. J. Smith and A. Bogomolny

129 **Effects of nutrition and environment on brain biochemistry and behavior**
L. S. Crnic

147 **The ontogeny of delta-9-tetrahydrocannabinol responsiveness in the rabbit**
B. S. Fish and P. Consroe

159 **Erratum: Cortical depth changes in enriched and isolated mice**
R. A. Cummins, P. J. Livesey, and J. A. Bell

161 **Erratum: The development of proxemic spacing behavior: Children's distances to surrounding playmates and adults change between 6 months and 5 years of age**
J. W. Burgess and D. McMurphy

NO. 3, MAY 1983

163 **Neonatal sex-steroid hormones and timidity in 6–18-month-old boys and girls**
C. A. Jacklin, E. E. Maccoby, and C. H. Doering

169 **Mother–infant interaction and the modulation of pituitary–adrenal activity in rat pups after early stimulation**
W. P. Smotherman

177 **Determinants of suckling versus drinking in weanling albino rats: Influence of hydrational state and maternal contact**
J. P. Bruno, E. M. Blass, and F. Amin

185 **Alarm call responsivity of mallard ducklings: I. The acoustical boundary between behavorial inhibition and excitation**
D. B. Miller

195 **Alarm call responsivity of mallard ducklings: II. Perceptual specificity along an acoustical dimension affecting behavorial inhibition**
D. B. Miller

207 **Chemosignal effects on puberty in young female mice: Urine from pregnant and lactating females**
L. C. Drickamer

219 **Species discrimination in infant pigtail macaques with pictorial stimuli**
K. B. Swartz

233 **The influence of siblings on the development of sexual preferences of male zebra finches**
J. P. Kruijt, C. J. ten Cate, and G. B. Meeuwissen

241 **Book Review: Developmental Neurology, by Hans C. Lou**
M. H. Teicher

245 **Book Review: Behavorial Development: The Bielefeld Interdisciplinary Project, edited by Klaus Immelmann, George W. Barlow, Lewis Petrinovich, and Mary Main**
G. W. Meier

249 **Announcement**

NO. 4, JULY 1983

251 **Developmental psychoneuroimmunology**
R. Ader

269 **Locomotor-rotational movements in the ontogeny and play of the laboratory rat *Rattus norvegicus***
S. M. Pellis and V. C. Pellis

287 **Interactive effects of genotype and early life undernutrition on the development of behavior in rats**
J. Tonkiss and J. L. Smart

303 **Timing of dispersal in juvenile jewel fish during development is unaffected by available space**
M. J. Chen, R. G. Coss, and R. O. Goldthwaite

311 **Rooting and the development of male sexual behavior in two inbred mouse strains**
B. D'Udine and A. Manning

323 **Development of species identification in ducklings: X. Perceptual specificity in the wood duck embryo requires sib stimulation for maintenance**
G. Gottlieb

335 **Female perception of cowbird song: A closed developmental program**
A. P. King and M. J. West

343 **Book Review: Early Experience and Human Development, by Theodore D. Wachs and Gerald E. Gruen**
H. L. Rheingold

NO. 5, SEPTEMBER 1983

347 **Olfaction mediates developmental transition in the altricial newborn of selected species of mammals**
J. S. Rosenblatt

377 **Brain growth in young mice: Evidence on the theory of phrenoblysis**
M. E. Hahn, J. K. Walters, J. Lavooy, and J. DeLuca

385 **The influence of age and experience on salt preference of the rat**
E. E. Midkiff and I. L. Bernstein

395 **Is hippocampal function in the adult rat impaired by early protein or protein-calorie deficiencies?**
R. D. Hall

413 **Perceptual imprinting: Genetic influences and genotype–environment interactions**
J. K. Kovach and G. Wilson

423 **The response of young Peking ducklings to sibling distress calls**
S. J. Gaioni, S. Applebaum, and J. Goldsmith

439 **Changes in appetitive behavior in weanling-age rats: Transitions from suckling to feeding behavior**
M. L. Stoloff and E. M. Blass

455 **Book Review: Behavior Genetics and Evolution, by Lee Ehrman and Peter A. Parsons**
J. L. Fuller

456 **Announcement**

NO. 6, NOVEMBER 1983

457 **Developmental changes in head-circumference and mental-performance growth rates: A test of Epstein's phrenoblysis hypothesis**
R. B. McCall, E. D. Meyers, Jr., J. Hartman, and A. F. Roche

469 **Effects of gastric filling and vagotomy on ingestion, nipple attachment, and weight gain by suckling rats**
D. N. Lorenz

485 **Individual recognition of human infants on the basis of cries alone**
J. A. Green and G. E. Gustafson

495 **Maturation of autonomic control in preterm infants**
N. A. Fox

505 **Dietary effects on rhesus social behavior: Altered amino acid diets**
A. S. Chamove

511 **Alleviation of infantile amnesia in rats by means of a pharmacological contextual state**
R. Richardson, D. C. Riccio, and T. Jonke

519 **Parabrachial nuclei damage in infant rats produces residual deficits in gustatory preferences/aversions and sodium appetite**
D. L. Hill and C. R. Almli

535 **Early brain insult and cognition: A comparison of malnutrition and hypothyroidism**
B. J. Strupp and D. A. Levitsky

551 **Book Review: Theory and Research in Behavioral Pediatrics. Volume 1, edited by Hiram E. Fitzgerald, Barry M. Lester, and Michael Yogman**
S. Goldberg

554 **Announcement**

555 **Acknowledgment**
